

ALM Managed Services **Your Lifecycle, Our Expertise.**

End-to-End ALM Managed Services to Accelerate
Delivery, Ensure Compliance, and Scale with Confidence

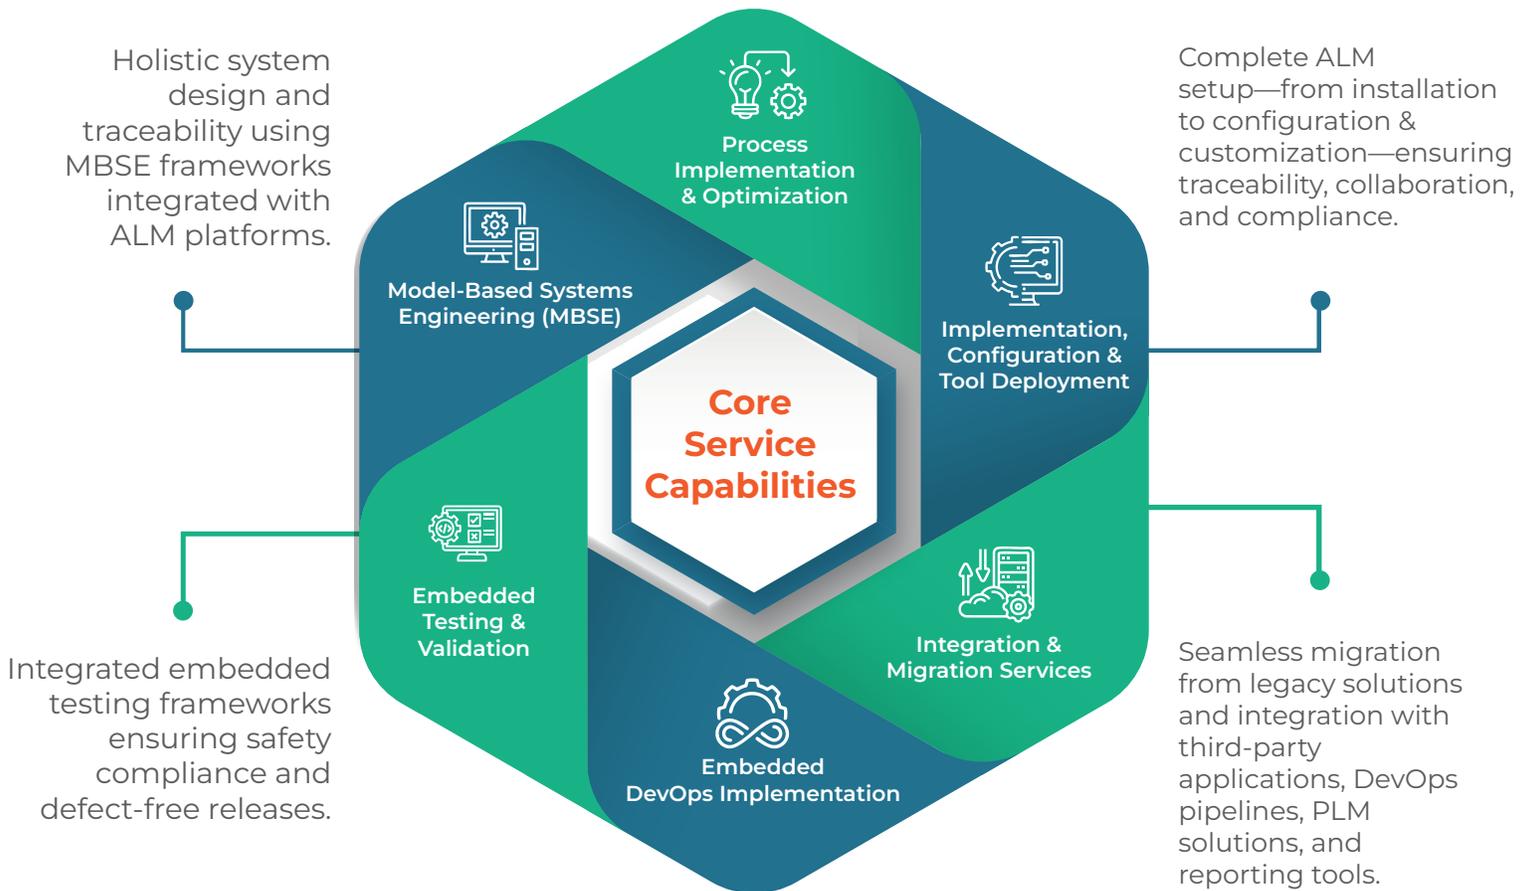

Who We Are

MicroGenesis delivers fully managed, enterprise-grade ALM Managed Services that seamlessly support the entire application lifecycle - integrating tools, processes, infrastructure, and operations to drive speed, compliance, and reliability.

Fully Managed ALM Services That Scale with You

Our ALM Managed Services are tailored for organizations operating in compliance-driven, safety-critical, and high-scale engineering environments.

Standardize and implement ALM processes aligned with ASPICE, ISO 26262, DO-178C, IEC 62304, CMMI, and Agile frameworks.

Technology Ecosystem

We support best-in-class ALM platforms and enterprise integrations with custom integrations and connectors:

Why ALM Managed Services?

Modern engineering teams face tool sprawl, fragmented traceability, scalability constraints, and increasing regulatory pressure.

Our ALM Managed Services help you:

Shift tool-management overhead to a trusted partner

Achieve end-to-end traceability across requirements, design, test, and release

Stay audit-ready with ASPICE, ISO 26262, DO-178C, and IEC 62304

Scale securely with enterprise-grade ALM frameworks

Free developers to focus on innovation—not platforms
